Pole Banners

Pole banners are perfect, and most often used, for business advertisements. There are three types of pole banners, depending on their purpose. Indoor Pole Banners are finished with pole pockets on top and bottom and optional grommets. They are available printed on a high quality 13 oz coated vinyl. They're most often used in retail, restaurant and coffee houses, retail or large businesses, and hotels. Outdoor Pole Banners are also finished with pole pockets on top and bottom, as well as optional grommets and wind slits. They are available printed on an extra durable 18 oz premium vinyl. These banners are typically mounted on light poles, or used as an outdoor banner. Outdoor Pole Banners are printed on one side only, on a 13 oz vinyl material. These are available in almost all of our regular vinyl banner sizes and come with pole pockets on top and bottom, as well as optional grommets and wind slits. This option allows you to mount the banner in multiple ways, depending on your need, and it is also perfect for use in a parkade, where the people will march behind it, and only one side will show. Choose your 2x3 Pole Banner if a great banner for both indoor and outdoor use. This banner meets and maintains you can use it multiple times for many years. Update your own design or use our friendly banner maker tool to create your own custom 2x3 Pole Banner. With access to hundreds of Pole Banner templates and thousands of images, you'll cover every occasion and demand. In addition, you can upload your own graphics or photos and bring your banner design to perfection. You can ask for help and get support from our professional designers with no extra charge! From the moment your printing order is placed you may receive your banner as early as next day. Ordering a Pole Banner from AllStateBanners.com comes with a 100% satisfaction warranty. We are proud of the quality of our work and we carry the best reviews and ratings online.

Pole Banner Material

A pole banner is printed on a high quality 13oz Vinyl with the best performance colors in the market. The banner is made from two separate banners that are laminated and put together back to back. They are adhered to using heat, and grommets are placed every 2-4 feet around the perimeter based on your selection. A Pole Banner is used for both indoor and outdoor use, and comes with multiple finishing options. If you're on an important message to share, one of the best ways to get the most attention is with a great display. A pole banner is a display option that can add plenty of flexibility to your advertising attempts. There are a number of things that set this type of banner apart from others, with the first being its ability to capture attention from any and every direction.

Use of a Pole Banner

In addition to the significant work, other pros are that pole banners are customizable in size, look, finish, and come in a heavy-duty vinyl material that allows installation to be shared in a professional and impressive way. These banners can be conveniently placed in a variety of settings, both indoor and outdoor, and can be hung or placed in a number of ways. More specifically speaking, one can consider hanging the type of banner using suspension hardware, on a transparent surface with tension accessories, or using a banner stand.

Whether you are searching for a display that can effectively advertise your message at a window, conference or in a hall of something larger or more permanent, a pole banner is a wise choice that can be crafted to meet your needs and capture attention in a dual-styled manner.

Care of a Pole Banner

To take great care of your pole banner, regularly clean it with warm water and give some time to air dry before putting it back to storage. For every string, roll it and keep it in a dry area at room temperature. Any wrinkles in your banner should come out within a couple of hours in the sun or heat.

Installation of a Pole Banner

One of the easiest applications is to install a pole banner. Use cords, straps or hangers to attach the corner grommets to a stationary object, such as a pole or anything else that you choose. This advertising option is ideal for a wide range of spaces including malls, studios, arenas, and even outdoor fairs and festivals. With the optional adhesive-spreading factor, someone catching the eye of traffic coming and going. Regardless of the information being shared, whether an important announcement, social media update, or a new special product marketing endeavor, a banner such as this can play a significant role in capturing attention and getting that important information out there.

Options

Customs
Provide a convenient method for hanging or attaching vinyl signs at regular points. This distributes the weight and helps to keep the vinyl signs from sagging. Heat-set metal edges are typically used to reinforce the sides of vinyl banners, helping maintain the banner's shape and prevent stretching. This is particularly helpful when grommets are used on vinyl signs.

Pole Pockets

Pole Pockets allow for rigid poles or dowels to be inserted along the edges of custom vinyl banners. This allows for a more even distribution of a banner's weight to prevent sagging. Optional pole pockets can also be used to make the banners more rigid.

Slits

If you choose this option, we will cut small half-circle into your custom vinyl banners. This feature is perfect for outdoor banners, as it helps to prevent tearing and fraying.

Vinyl Banners Shipping

Customs enjoy free shipments if their total purchase amount is \$50 or more. Another great deal is the free custom baggy offered for all pole or banner products.

Pole Banners Durability and Life

The life of a banner really depends on how it is being used, stored, and taken care of. The most vinyl signs are used, and they will still meet the durability options available and last anywhere between 3-6 years. The most cost-effective vinyl banners are our custom banners in 13 oz vinyl or the 1/2 inch. Naturally, if the vinyl banners are being used outdoors 24/7, due to the weather conditions and the materials, they will wear out more quickly than if used occasionally, or in mild indoor conditions. The weather conditions and the materials they are made from really determine the lifespan of vinyl signs.

If you are planning to mount your custom vinyl banners outdoors, you can choose to get them on extra durable 18 oz vinyl and adding slits to the design. If your vinyl banners will be placed against a flat, or hung from the top etc. where it can be blown around. You can consider ordering reinforced corners along with your banner if you are planning to use grommets to hang your banner. All the standard banners will receive extra support to the corners of your banner, and prevent tearing. When storing your banner for later use, we recommend that you roll it and keep it away from dust and extreme heat, as opposed to folding it. When the banner is rolled as opposed to folded, you are preventing the banner from creasing.

Though, if the banner is too large, and it is easier to hold over the roll, then it's better not to. So, you can always get it rolled or folded depending on the situation. We will provide light lead to the custom vinyl banners, but not too close. If you have any additional questions on how to take proper care of your banner and vinyl banners to ensure a longer lifespan, don't hesitate to call or email us. We will be happy to assist you!
