Printing Quality of Breakaway Banners

Because the design process for these banners is entirely digitized, the finished product is a high-quality, vivid display that can go a long way in drawing attention. The top-of-the-notch ink is durable and weatherproof, matching the quality and durability of the vinyl material that is used for the final product. The design process can begin with one of the pre-existing templates found on our website, or with an uploaded image or graphic. Considering the location of the breakaway banners can become incredibly useful during this phase of the design process. For a placement that asks for seconds of attention, such as along a busy road or highway, a simple logo and snappy text or image can go a long way. If, on the other hand, the banner will be placed in a sporting arena, where viewers have more time for observation, slightly more detail is possible.

Breakaway Banners Options

Grommets
Provide a convenient method for hanging or attaching vinyl signs at regular points. This distributes the weight and helps to keep the vinyl signs from sagging. Hems Hemmed edges are typically used to reinforce the sides of vinyl banners, helping maintain the banner's shape and prevent stretching. This is particularly helpful when grommets are used on vinyl signs.

Pole Pockets

Pole Pockets allow for rigid poles or dowels to be inserted along the edges of custom vinyl banners. This allows for a more even distribution of a banner's weight to prevent sagging. Opposing pole pockets can also be used to make the banners more rigid.

Sits

If you choose this option, we will cut small half-circles into your custom vinyl banners. This feature is perfect for outdoor banners, as it helps to prevent twisting and flapping.

Breakaway Banners Shipping

Clients enjoy free shipments if their total purchases exceed \$99 in value. Another great deal is the free carry bags offered for any pull-up banner purchased from this company.

Breakaway Banners Durability and Life

The life of a banner really depends on how it is being used, stored, and taken care of. The more vinyl signs are used, the faster they will wear out. Although, typically banners last for anywhere between 3-6 years. The most custom vinyl banners can serve your business is 5-10 years or the last 1-2 years. Naturally, if the vinyl banners are being used outdoors 24/7, due to the weather conditions and the sunlight, they will wear out more quickly than if used sporadically, or if used indoors. It is not difficult to maintain a banner and store it, but maintenance really determines the lifespan of vinyl signs.

If you are planning to mount your custom vinyl banners outdoors, you are better off getting an extra durable 18-ounce vinyl, and adding slits to the design, if your vinyl banners will be placed against a fence, or hung freely in the air, where it can be blown around. You can consider ordering reinforced corners along with your banner if you are planning to order grommets to hang your banner, as the reinforced corners will ensure extra support to the corners of your banner, and prevent ripping. When storing your banner for later use, we recommend that you roll it and keep it away from dust and extreme heat, as opposed to folding it. When the banner is rolled as opposed to folded, you are preventing the banner from creasing.

Though, if the banner is too large, and it is easier to fold over the roll, don't stress out too much, you can always get rid of creases when hanging or laying the banner flat, and applying light heat to the custom vinyl banners, but not too close. If you have any additional questions on how to take proper care of your banner and vinyl banners to ensure a longer lifespan, don't hesitate to call or email us. We will be happy to assist you!
