Product Details

Banner Rope

Banner Ropes are used for banner installation. They are made out of nylon which make them very strong when installed outdoors. Strong and cost-effective, ropes will securely hold your banner in place no matter the banner size. Banner ropes are re-usable. For banner installation you would need to cut two lengths: one for upper edges and one for lower edges of a banner. After passing the lengths through the grommets tie the knots on each corner to prevent it from sliding inwards. Banner rope is 50 feet long.
