Product Details

Banner Tape

Banner Tape is used to reinforce banner edges in order to avoid folding or sewing the hem. It is a double coated heavy duty PVC tape and it is proven to be super resistant in different temperature ranges suitable both for indoor and outdoor use. Besides banner hemming, it can be used for other purposes where high adhesion is needed (fabrics, cloth, plastics, painted and unpainted wood, metal, etc.)

This 1" X 164' Double-Sided Heavy-Duty Banner Hem Tape, permanently bonds banners together. Best used with vinyl banner material, you can hem your banners without the need to sew. Reinforce your banners by adding an extra fold and hemming it with Banner Hem Tape. Hem Tape can be used in extreme temperatures and attaches well to metal, paint, glass and low-energy surfaces

Product Specs:

- 1" x 164' of Double-sided Tape
- Permanently Bonds Banner
- 6.7 mil Thickness
- Great for Hemming Banners
